BLU-MED® ATTRIBUTES

RAPIDLY DEPLOYABLE TO MEET IMMEDIATE NEED IN THE APPROPRIATE LOCATION

BLU-MED® Deployable Medical Facilities can be stored in space-efficient containers, ready to transport and easy to set up, or man-portable carry bags. Four trained persons can set up one structure in as little as thirty minutes.

SCALABLE TO MEET CHANGING NEEDS

BLU-MED® Deployable Medical Facilities are modular and can be easily reconfigured and quickly expanded to create large complexes as demand increases.

CLIMATE CONTROLLED TO ENSURE A SAFE MEDICAL ENVIRONMENT

BLU-MED® Deployable Medical Facilities are climate controlled, ensuring a safe medical environment even in extreme conditions, maintaining interior 65°F to 75°F (18°C to 24°C) in exterior temperatures ranging from -25°F to 140°F (-31°C to 60°C).

DURABLE TO REMAIN FUNCTIONAL THROUGHOUT THE INCIDENT PERIOD

BLU-MED® Deployable Medical Facilities are capable of lasting the duration of a long-term event and recovery. They are engineered to withstand heavy rain, 100-mph winds and a 20-psf snow load.

VERSATILE TO ADAPT TO REGIONAL REQUIREMENTS AND OPERATIONAL NEEDS

BLU-MED® Deployable Medical Facilities layout, electrical system, and accessory equipment can be configured for any global region or site condition.
